trusted to deliver, every time.

Customer Digital Proof & Check List

This is a digital copy of the artwork from which your order will be printed. Even if the artwork has been supplied to Prontaprint, there are occasionally circumstances beyond our control where the sample may differ from the artwork supplied. For documents of multiple pages we will only show a sample selection of the pages.

We recommend you check the following areas (but not limited to) of your proof before authorising print:

- Content
- Layout
- Spelling
- Punctuation
- Colours
- Typeface
- Number of pages

Prontaprint does not accept responsibility for errors after a proof has been signed.

To note, the colours may vary due the process of photography and the screen on which you are viewing. The digital proof will also not show a true representation of the type of paper/card or size.

If you are unsure of the colours, the paper stock, the size or wish to see the entire document then please do not agree to this but arrange to see a physical printed proof.

Corrections made after a proof has been signed are chargeable.

If you are entirely satisfied please send your agreement via email
